Technical Data Sheet

Release Date: Jun, 2026, NO.: REZUX-AD-20260608-01E

Enfinol® AD616

Version: 3

Performance Overview

- Enfinol® AD616 is an anti-skinning additive used in waterborne inks and coatings

Product Features

- Enhance the anti-skinning ability of waterborne inks
- Reduce the plate fouling rate of waterborne products and improve the sustained stability during printing

Physical Property

Product Performance

Appearance（25℃）	Colorless, transparent liquid
Density（20℃，g/cm^3）	1.13
Active Ingredient Content（%）	60

Application

- Uses for waterborne inks and coatings

Use Method

- The optimal amount needs to be determined by a series of experiments

Packaging & Storage

- 20kg、200kg & 1000 kg/Barrel
- Shelf life: 12 months

Service Restrictions

- This product has not been tested nor has it been specifically stated that it is suitable for medical or pharmaceutical use. It may not be used for human injection or consumption

Limited Warranty Information - Please read carefully

- The content of this product data sheet is based on the products owned by my company, and is provided for reference only
- Due to the numerous formulations, production, and application conditions, customers should pre-test the adaptability of my company's products before using them to determine their performance, efficiency, and safety.
- The suggestions we provide shall not be considered as a cause of any patent infringement. The sole responsibility of our company is to refund the money or exchange it for a product with same value
