Technical Data Sheet

Release Date: Jun, 2025, NO.: REZUX-DSP-20250623-01E

Enfinol® DSP6295

Version: 1

Performance Overview

- Enfinol® DSP6295 is a water-based polymer dispersant used to improve the dispersion and stability of pigments in aqueous systems

Product Features

- Suitable for preparing resin free color paste, industrial coatings, etc
- Good weather resistance and good dispersion
- Good color development and wetting properties

Physical Property

Products Typical Data

Appearance：	Yellow transparent liquid
Active substance (wt%)：	40
Density (20 ℃， g/cm³)：	1.05

Application

- Paint field
- Printing ink
- Adhesives/sealants

Use Method

- It is usually added according to 10~12% of inorganic filler, and if it is carbon black and organic pigment, it is added according to 15~50% of powder. The best amount should be determined through a series of experiments

Packaging & Storage

- 20kg、200kg & 1000 kg/Barrel
- Use the original container to store in a cool, dry environment, avoid direct sunlight
- Shelf life of 12 months from the date of production

Service Restrictions

- This product has not been tested nor has it been specifically stated that it is suitable for medical or pharmaceutical use. It may not be used for human injection or consumption

Limited Warranty Information - Please read carefully

- The content of this product data sheet is based on the products owned by my company, and is provided for reference only
- Due to the numerous formulations, production, and application conditions, customers should pre-test the adaptability of my company's products before using them to determine their performance, efficiency, and safety.
- The suggestions we provide shall not be considered as a cause of any patent infringement. The sole responsibility of our company is to refund the money or exchange it for a product with same value
